# The Unequaled Advantages We Offer.

SAVE MONEY BY PLACING YOUR ORDERS WITH US.

In soliciting your orders, we first of all desire to acknowledge our full appreciation of the very generous patronage given us in past seasons, and to draw the attention of those who have not before dealt with us to the following advantages we possess as growers and dealers :

**EVERYTHING FOR THE GARDEN.**—The fact that we can supply every want of the cultivator in **Seeds, Plants, Bulbs, Garden Tools, Fertilizers,** and all needed articles for the **Greenhouse and Garden,** enables patrons to have all their goods shipped in one package, or at least at one time, thus saving largely in express or freight charges.

**PLANT DEPARTMENT.**—Our greenhouses and frames cover nearly four and one-half acres solid in glass, unquestionably the most extensive on this Continent. These structures are so arranged that they can be graded to any temperature, so that the most perfect health and vigor is given to the plants, and with such unequalled facilities for their production, it will be quickly seen that we can compete with any in the matter of prices, quality of stock considered.

**OUR GUARANTEE.**—We guarantee the safe arrival of all goods forwarded by express, and all packing is free of charge.

**ORDERS FILLED PROMPTLY.**—Except in rare cases, all orders for *Seeds and Plants* are forwarded *the day after they are received by us or a reason given why they are not sent.* We have reason to know that our promptness in this respect is fully appreciated.

**PREMIUMS.**—In offering our various Books on gardening, as premiums on orders, we make (see page 3 of cover) practically an average discount of 10 per cent. from the prices named in this List, and this should always be remembered if a comparison of prices is made. In this connection, we may be pardoned if we digress far enough to say that it is a great satisfaction for us to know that the books referred to, written by the late Mr. Peter Henderson, have not only enabled many amateurs to practice successfully in the field of Horticulture, but that his works have also been the direct means of causing thousands to embark as market gardeners and florists, and in thus opening up and pointing the way to successful culture, we are justified in claiming that these books have since their first publication added millions of dollars to the wealth of the nation.

## CONDITIONS OF SALE OF PLANTS.

The plants are offered in this list at the rates quoted, *provided, that not less than FIVE of each class or variety is taken,* nor in less amounts than *three dollars for the total value of the order.*

The varieties must be our own selection of sorts, *unless otherwise offered.* Any one wanting varieties of special kinds, can order from our Descriptive Catalogue, but at retail rates, from which we allow a discount of one-third.

All goods are sent by express, unless specially ordered otherwise.

To places where there are no express offices, we will send all plants, named in this List, *by mail,* at an advance of one-fourth on the prices named; but again advise, that whenever it is possible to have plants sent by express, as it is the best mode, and our light system of packing makes the charges comparatively low. If purchasers want their *Plants sent by freight* we will do so, and take special pains to have them arrive in good condition, but the movements of *freight* are so unreliable that we do not guarantee safe arrival when sent in this way.

## HOW MONEY SHOULD BE SENT.

Remittances should be made either in the form of a Money Order, Bank Draft, Express Order, or Registered Letter. Remittances in any other way are entirely at the sender's risk.

OUR WHOLESALE PRICE LIST FOR FLORISTS is issued as a quarterly publication, on or about the following dates: Each issue cancelling all quotations made in previous lists.

2d ".....	March 1st to June 1st.

## Special Low Offer of Roses.

Nearly all our roses are propagated during the summer months, so that by September and all through the fall and winter months, we have specially strong young stuff, grown in 3 inch pots, which have twice the value of the ordinary 2 inch stock—of these we can offer a dozen of the leading kinds suitable to pot up for spring sales, such as **Hermosa**, **Agrippina**, **Souvenir Malmaison**, **Marie Guillot**, **Mrs. Degraw**, **Safrano**, and other standard sorts at \$6.00 per 100, or \$50.00 per 1000. Plants from 2 inch pots, \$5.00 per 100; \$40.00 per 1000. We catalogue over 100 sorts, which we can sell at the same rates, but florists will find it to their advantage to buy only the standard well-known market sorts.

**Gen. Jacqueminot**, clean thrifty plants from 4 in. pots, \$12.00 per 100; 3 in. pots, \$8.00 per 100.

**AMPELOPSIS VEITCHII.**  
(Sometimes called "Boston Ivy" and "Japan Ivy.")

No picture can portray the beauty of this grand climbing plant. As an important aid to architectural beauty in its rapidly attaining prominence, being now a feature on the finest houses—notably the palatial residence corner of 57th Street and 5th Avenue, New York City. Another fine example of it is seen on Grace Church, in New York, while on Commonwealth Avenue, in Boston, there are hundreds of the finest houses covered with it from foundation to roof. It is adapted to all situations, and transforms the humblest cottage. It is entirely hardy in the most exposed places, attaining a height of 20 to 30 feet in two or three years, clinging to stones, brick or wood work with the greatest tenacity. It is a

great protection to houses, as the leaves lapping over each other like slates on a roof effectually prevents rain from penetrating the walls. For covering dead trees, gate posts, boundary walls, verandas, etc., it has no equal, while its rapid growth and tenacious clinging qualities make it a most desirable plant for staying up terraces. In the summer the foliage is a rich shade of green, but in the fall it assumes the most gorgeous tints of scarlet,

crimson and orange, so dazzling as to be seen at a great distance. We sold over 50,000 plants of this and *A. Royali* the past season, a large proportion of which were used on churches and public buildings.  
PRICE, plants from 3 in. pots, 2 to 3 feet long, \$7.00 per 100; \$60.00 per 1,000. Extra strong plants from 4 in. pots, \$10.00 per 100; \$90.00 per 1,000.

**AMPELOPSIS ROYALII.**

This is yet quite scarce, being a comparatively new variety. It is identical with *A. Veitchii* as regards its climbing properties, but it is a larger and stronger growing plant. The foliage even in summer is richly tinted crimson, and in autumn it is perfectly gorgeous in its flame-colored foliage. It is, in our opinion, by far the most valuable of the two varieties. Although comparatively scarce, we have a large stock of it, and place it at the same price as the older sort, which see above.

**DOUBLE GOLDEN MARGUERITE.**

(*Anthemis Coronaria*, fl. pl.)

(Ready Sept. 15th.)

Thousands of this valuable plant are now sold annually in the New York market, being so attractive when in bloom that it sells on sight. The flowers are clear golden yellow, it blooms without cessation the entire season; in winter as well as in summer it is ever covered with bloom. Each season's experience with this grand plant more than confirms the high opinion formed of it when first sent out.

\$1.00 per dozen; \$8.00 per 100.

**AZALEAS.**

(Ready November 1st.)

We offer a very fine lot of Azaleas, comprising the most distinct and best varieties in cultivation, embracing all shades of crimson, white, pink, and rose color. The plants will be ready about Nov. 15th. They are all shapely specimens, well "headed" double and single flowered, and will make splendid plants for winter decoration. We offer 12 varieties in each size.

Extra large plants, 14 to 16 in. heads, \$9.00 per doz.; \$60.00 per 100. 2nd size, \$5.00 per dozen; \$40.00 per 100. Plants from 3 in. pots in mixed sorts, \$10.00 per 100.

**Azalea Indica Alba.**—Pure white, one of the best for general use. 3 in. pots, \$1.50 per doz.; \$10.00 per 100.

**Azalea "Deutsche Perle."**—(Ready Nov. 15th.) Unquestionably the finest double white forcing variety. Price, plants, from 6 in. pots, \$9.00 per doz.; second size, \$5.00 per doz.

# ❖ CARNATIONS. ❖

*Plants from Open Ground Ready September 15th.*

LIZZIE M. GOWAN.

**Silver Spray.** One of the best *white* varieties we have, strong habit and very free blooming, \$12.00 per 100.

**Mrs. Fisher.** Another very fine *white* variety of the largest size and substance. Habit and constitution all that could be desired. \$12.00 per 100.

**Portia.** Brilliant scarlet. In richness of color, profusion of bloom, vigor and growth, and every essential of a first-class carnation, this variety stands unequalled. \$10.00 per 100.

**Grace Wilder.** The pink carnation *par excellence*. Thousands of this variety are grown for the New York market in preference to other sorts of more recent introduction claimed to be superior to it. \$12.00 per 100.

**The Bride (White Grace Wilder.)** Identical with Grace Wilder in every respect except the color which in this variety is pure white. This sort is an important addition to our list of winter flowering carnations. \$16.00 per 100.

**American Flag.** The best striped carnation as yet introduced. The flowers of this fine variety brought on an average 25 per cent. more than any other carnation in the New York market last winter. \$20.00 per 100.

**Crimson King.** Dark crimson. One of the best in its color. \$12.00 per 100.

**Hinzey's White.** A very good white carnation planted largely for the New York market. \$12.00 per 100.

## HARDY PINKS.

(For forcing.)

**Snow (Mrs. Sinkins.)** Flowers of the largest size and purest white. Owing to its dwarf habit and certainty of blooming it can be grown where carnations would fail. \$8.00 per 100.

**Anne Boleyn.** Similar to the above in all respects save color which is a light carmine. \$10.00 per 100.

## New White Carnation, "LIZZIE McGOWAN."

This grand variety originated with John McGowan, Orange, N. J., and is a "Pedigree" seedling, being the result of a cross between Heinze's White and Peter Henderson. The flowers are of the purest white, frequently three inches across and are of fine substance, so that it is finely adapted for shipping. The habit of the plant is strong and free, being remarkably floriferous. It is undoubtedly the finest white variety on the market at present. (*See cut.*) Price, plants from open ground, \$20.00 per 100.

**NOTE.**—As the carnation season is short, we pot into 5 and 6 inch pots a portion of our stock for late sales. These will be ready October 1st and we offer them at an advance of 50 per cent. on field grown stock. All plants from pots will be established before shipping.

THE PINK OSTRICH PLUME CHRYSANTHEMUM, "LOUIS BOEHMER"

### THE TWELVE BEST CHRYSANTHEMUMS FOR FLORISTS' USE.

We have carefully compared the hundreds of varieties now in use for flowering under glass—both early and late—and find those named below to be the most profitable. By careful disbudding we averaged in most of the varieties during October and November, 20c. for single flowers from plants which had been planted in July and which gave about five flowers to each plant. They were planted 12 inches apart.

**Louis Boehmer**, the famous "Pink Ostrich Plume" variety; an exquisite shade of silvery pink, the inside of the petals being a deep rose. The flowers are thickly studded with a soft feathery growth, hence the title of "Ostrich Plume" Chrysanthemum. (*See cut.*) Price, \$10 00 per 100.

**Gloriosum**, large yellow. \$6.00 per 100.

**Elaine**, large white. \$6.00 per 100.

**Robert Bottomley**, white, loosely incurved. \$6.00 per 100.

**Mrs. Humphreys**, white reflex. \$6.00 per 100.

The White "Ostrich Plume," Chrysanthemum, (Mrs. Alpheus Hardy.) \$8.00 per 100.

**L. B. Bird**, shrimp pink, splended. \$6.00 per 100.

**H. E. Widener**, large globular yellow. \$12.00 per 100.

**John Lane**, bright pink. \$8.00 per 100.

**W. H. Lincoln**, large fine yellow. \$8.00 per 100.

**L. Canning**, fine early white. \$8.00 per 100.

**E. G. Hill**, deep yellow shading to bronze. \$8.00 per 100.

**SPECIAL NOTICE.**—We will have *stock plants* of all the above ready about Nov. 1st. Price, \$3.00 per doz.

GENISTA RACEMOSUS.

**GENISTA RACEMOSUS.**

Is the plant shown in the engraving above, which, although not new, has become very fashionable in New York the past few years—well grown plants selling at from five to fifteen dollars each. Few plants are more deserving of popular esteem. The engraving shows a plant just coming into bloom. The flowers are pure golden yellow and literally cover the plant when well grown, suggesting the title of "Fountain of Gold." (See cut.)

**HENDERSON'S HOLLYHOCKS.**

"New Double Strain"

We have given the above name to a grand collection of Hollyhocks which we have produced after years of careful selection. These varieties are remarkable for their perfect double flowers, large size, brilliancy and variety of colors. They are now much used in summer for cut flower work, particularly the double white.

Hollyhocks are among the finest permanent garden plants, as, being entirely hardy in most places and free growing, they make a grand display with little or no care. Our collection contains all the colors named, but as they are grown from seed an occasional departure from these shades may be expected. For the same reason a small percentage may be single or semi-double. We offer them in the following shades which are the leading colors grown: **double white, double yellow, double pink, double crimson, double salmon, double variegated, and double maroon.** These if planted in cold frames this fall will make fine plants for next season's bloom. Price for the above varieties, plants from 2 in. pots, well established, \$4.00 per 100; all colors mixed, \$3.00 per 100.

**FUCHSIAS. (Assorted.)**

We have a grand collection of these, embracing double and single in the newest and best varieties. They will make fine plants for stock. Price, plants from 3 in. pots, \$6.00 per 100.

**GREVILLEA ROBUSTA.**

"The Silk Oak."

One of our most valuable plants for decorative purposes. It is of quick and easy growth, rare beauty of foliage, in a measure taking the place of Aralias and is so cheap that no florist can afford to be without it. Price, strong plants from 5 in. pots, \$4.50 per doz.

**HIBISCUS. (Chinese Assort'd)**

We offer a splendid collection of these—strong plants from 3 in. pots in 6 best varieties. Price, \$8.00 per 100.

**JASMINUM HIRSUTUM.**

A plant always in demand particularly in the fall and winter months. We offer a very fine lot from 3 in. pots. Price, 3 in. pots, \$8.00 per 100.

**LEMON VERBENA.**

Strong plants of this old favorite from 3 in. pots Price, \$6.00 per 100; from 2 in. pots, \$4.00 per 100.

It will grow and bloom in any ordinary soil and given strings or wires to cling to it will attain a height of from 6 to 10 feet in one season. All our different forms of ventilated and perfect drainage bottoms are patented and controlled by us.

**EXCELSIOR****Standard Flower Pots.**

—WITH—

*Patent Ventilated and Perfect Drainage Bottom.*

Awarded THE ONLY FIRST-CLASS CERTIFICATE OF MERIT, for Standard Flower Pots, by the Society of American Florists, at Boston, Mass., August 21st, 1890.

These Pots are all "STANDARD" shapes and sizes, the same as adopted and recommended by the Society of American Florists, and are far superior to any other FLOWER POTs.

By the use of the EXCELSIOR FLOWER POTs the danger of OVER-WATERING is avoided.

OVER-WATERING and the want of PROPER VENTILATION causes the soil in and underneath the Pots to become sour, and the roots to decay. Many valuable plants are lost in this way.

## A FEW TESTIMONIALS ABOUT OUR PANSIES.

The Butterfly Pansy, the seeds of which we received from you, are now perfectly gorgeous.—MARY C. CASWELL, Concord, N. H.

I have a bed of Pansies raised from your "Butterfly" seed which is the wonder and admiration of all who see it.—MRS. RACHEL HARVEY, Swifts City, Ind.

My Butterfly Pansies are grand. In the spring when I set out pansies people think I am pansy crazy; but when they are in bloom, every one who sees them gets as crazy as I—MARY J. BROWN, Battle Creek, Mich.

CHAS. W. HILLEBRAND, Grower of Cut Flowers, Poughkeepsie, N. Y., June 20th, 1887, writes, "Every flower came up to the description; nothing like them was ever seen in this neighborhood before. Their wonderful markings are more beautiful than words can describe. They seem to me like the beautiful things, of which we heard in our childhood, but never expected to see."<sup>11</sup>

ARECA BAUERI.

We book orders now and execute them as soon as the seeds arrive WHICH NECESSARILY WILL BE AT DIFFERENT SEASONS as the time of ripening varies in different species.

We have made special arrangements direct with collectors to take large quantities, thereby enabling us to offer them at much lower prices than they are usually sold at, and thus getting them direct, enables us to send out fresh seed, which is of more importance with this class than with any seeds we are acquainted with.

We shall be pleased to quote specially for large orders, and if there are any varieties wanted that we do not herein catalogue, we will try to procure them. All correspondence in regard to such will be promptly replied to.

# HENDERSON'S NEW HANDBOOK OF PLANTS

## NEW PERSIAN *Cyclamen* "Ruby Giant"

A most beautiful winter and spring flowering bulb for window garden and conservatory. The unique flowers, of an exquisite ruby crimson color, often measure two inches across, and are borne in great numbers, and they remain in bloom many weeks.

The foliage is also strikingly handsome, of a rich green, grotesquely mottled with silver; consequently the plants are highly decorative even when not in flower, but when in the full wealth of bloom—the bright red flowers and gay silver and green foliage—are gloriously effective. Not the least among the charms of this plant is the certainty with which it grows and blooms.

Large dormant bulbs mailed free for 60c. each, or a set of 3 bulbs—1 each of "Giant Ruby," "Giant White," and "Giant Rose," for \$1.50.

With the latter set will be sent free of charge, a "HENDERSON'S BULB CULTURE," a 24-page treatise, giving full directions for growing bulbs, both indoors and outdoors, and our AUTUMN CATALOGUE.

Our AUTUMN CATALOGUE of Bulbs, Plants, and Seeds, the handsomest ever issued, mailed free on application.
